5. Economic Indicator — 10-Year Treasury Constant Maturity Minus 30Month Treasury Constant Maturity (Positive means investors expect the economy to grow and demand higher interest rates against inflation; Negative means extreme investor anxiety, investors believe economic trouble is brewing soon and rush to lock in long-term 10-year yields before the Federal Reserve is forced to slash interest rates to combat a recession)

5. Economic Indicator — Normally slopes up from left to right, implies healthy, expanding economy with normal inflation expectations; Flat implies economic transition or uncertainty; Inverted implies heavy fear of an impending recession
